EZ-sensor[®]

Always Ahead

Market-leading
OE quality, programmable,
single SKU TPMS solution!

Features of EZ-sensor[®]

- Compatible with market-leading TPMS programming tools
- Supports future and pending OE technologies
- Designed to replace a majority of TPMS sensors in the market

Benefits of Lean Inventory

- Increases speed of service
- Optimizes inventory levels
- Reduces overall cost of service

Rubber Snap-In

Available with clamp-in aluminum stem in silver and black matte.

Part #33500

Adjustable Angle Aluminum Clamp-In

Adjustable angle stem to allow fitment in more aftermarket wheels. This EZ-sensor[®] offers a 0° - 40° variable-angle aluminum valve stem and is rated for speeds up to 200 MPH.

Part #33700

90° Aluminum Clamp-In

Designed to fit specialty aftermarket rims with 90° valve holes. This sensor offers angled or straight stem options for further fitment, as well as silver and matte black color options for further customization.

Part #33900

Silver Aluminum Clamp-In
Rated for speeds up to
155 MPH.
Part #33600

Black Aluminum Clamp-In
Rated for speeds up to
155 MPH.
Part #33610

NEW

EZ-sensor

Always Ahead

The market's fastest programmable TPMS sensor with instant programming speed!

Features:

- Includes the same great benefits and functionality of EZ-sensor®
- Available with adjustable angle aluminum valve stem allowing fitment into more aftermarket rim sets

Benefits:

- Significantly increases speed of service
- Optimizes inventory levels
- Minimizes returns and decreases overall cost of service

Rubber Snap-In

Includes a rubber valve stem and can be equipped with aluminum silver and black matte valve stems. Rated for speeds up to 115 MPH.

Part #33560

Aluminum Clamp-In

Includes an adjustable angle aluminum valve stem that is rated for speeds up to 200 MPH.

Part #33760

Service Pack Options

Service pack components should be replaced at every tire change using an OE validated Schrader TPMS service pack. All components in the packs are intended for one-time use.
